 Portfolio

 Abhijeet Mhasde

Profile

I am a content developer who prioritizes results and has 1.8 years of experience in the EdTech industry, with a focus on creating and updating e-learning courses on multiple LMS platforms. Skilled in utilizing Jira for effective project management and consistently keeping up with the latest technologies. Committed to delivering high-quality solutions, with a strong focus on effective communication, client satisfaction, and innovative problem-solving. Seeking to leverage my technical expertise and customer-oriented approach in an International BPO environment.

Professional Experience

2023/01 – present
Mumbai, India

Associate Developer

LearningMate Solutions Pvt. Ltd.

In my role as a collaborative developer in the EdTech domain, I have consistently demonstrated a strong commitment to delivering effective solutions and ensuring project success. My experience spans multiple projects where I have showcased versatility, technical proficiency, and a proactive approach to problem-solving.

Project Management and Customer Collaboration: Effectively managed Jira tickets by translating client requirements into actionable tasks for content updates, notably on the Frost eLearning platform. Collaborated closely with customers, ensuring seamless communication and a thorough understanding of their needs.

Curriculum Development and Content Alignment: Led the development of engaging e-learning courses on the Penn Foster platform, combining approved designs with meticulous code implementation. Conducted detailed course mapping and content alignment on Cengage projects, ensuring that instructional materials accurately reflected the latest educational standards.

Data Extraction, Formatting, and Automation: Expertly extracted and organized university course data from Excel sheets with a focus on accuracy and precision. On the Scope and Sequence project, I led the development and implementation of Python-based automation systems, significantly reducing manual effort and minimizing errors in data processing.

Instructor Manual and Lecture PPT Development: On the Cengage project, I was responsible for updating instructional materials by integrating content from previous edition Word and PowerPoint files with the latest textbook PDF. This included a meticulous approach to content clarity, formatting consistency, and quality control.

Recognition of Excellence: Received the prestigious SPOT Award for my role in a time-sensitive project, demonstrating the ability to deliver high-quality results within tight timeframes. The project was completed with almost zero errors, resulting in a highly satisfied customer.

This journey has not only honed my technical skills but also emphasized my dedication to customer satisfaction, innovation, and a proactive approach to problem-solving. I look forward to bringing this wealth of experience and passion for excellence to future endeavors.

Education

2019/08 – 2022/06 Pune, India	Bachelor of Engineering <i>KJET's Trinity Academy of Engineering, Pune.</i> Civil Engineering
2014 – 2019 Pune, India	Diploma in Engineering <i>SVCP, Sinhgad Institutes.</i> Civil Engineering

Awards

Spot Award

Received the prestigious SPOT Award for playing a critical role in a high-impact project, where our collaborative team achieved remarkable results. Successfully delivered the project ahead of schedule, demonstrating exceptional performance without compromising quality. Interestingly, the project was executed with almost zero errors, which contributed to an exceptionally satisfied client. This recognition highlights my commitment to excellence, teamwork and ability to consistently exceed project expectations.

Projects

2024/07 – present	Wiley Education Services <i>Higher Education Courses on Articulate</i> <ul style="list-style-type: none">• Course Development on Articulate Rise 360: Developed online courses for higher education using Articulate Rise 360, based on detailed storyboards provided by the client. These storyboards included instructions on course structure, and accompanying files such as images, PDFs, and videos that needed to be integrated into the course.• Input Verification and Client Communication: Conducted thorough checks to ensure all necessary inputs were available before starting the course development. If any materials were missing, promptly communicated with the client to request the required files, ensuring a smooth development process.• Internal Progress Tracking: Updated the internal tracker to monitor the progress of course development, ensuring transparency and adherence to project timelines.
-------------------	--

- **Course QA and Finalization:** Followed the storyboard meticulously to build the course, paying close attention to details to avoid mistakes and escalations. Conducted quality assurance using Articulate Review 360, ensuring that all course components met the highest standards. After QA, published the course, updated the internal tracker, and informed the client for final review and approval.
- **Attention to Detail and Client Satisfaction:** Ensured that every aspect of the course was built with precision, resulting in high-quality deliverables that met client expectations. Worked closely with the client during the review process to incorporate any necessary additions, leading to successful course finalization.

2024/07 – present

Cengage

Higher Education Syllabus Mapping and Lectures

- **Instructor Manual and Lecture PPT Development:** Responsible for updating instructional materials by integrating content from previous edition Word files (Instructor Manual) and PowerPoint files (Lecture Slides) with the latest edition textbook PDF.
- **Course Mapping and Content Alignment:** Conducted detailed course mapping to align the previous edition syllabus with the latest textbook, ensuring that all instructional materials were accurately updated to reflect the most current content.
- **MS Word and PowerPoint Proficiency:** Developed and refined instructor manuals in MS Word, enhancing content clarity and structure. Created and updated lecture slides in PowerPoint, incorporating new textbook information and visual aids to improve educational delivery.
- **Attention to Detail and Quality Control:** Ensured meticulous attention to detail while updating content, with a focus on consistency and accuracy across all materials. Verified that all updates met educational standards and client expectations before final submission.

2023/10 – present

Macmillan

Higher Education Courses and EPUBS on FROST

- **Jira Ticket Management:**
Responsible for handling client initiated Jira tickets, detailing requirements for content updates on the Frost eLearning platform.
- **Complete Requirements Assessment:**
Micro-review Jira tickets, analyze content enhancement needs. This includes validating links and code, ensuring seamless integration, and evaluating user interfaces for better student engagement in university settings.
- **Proactive customer communication:**
Collaborate with the client to clarify any ambiguities or collect additional data needed to complete the project. Proactively seek and secure client input to enhance the overall quality of eLearning courses.
- **Quality Assurance and Timely Delivery:**
Execute comprehensive updates and enhancements following specified requirements. Strictly verify that all components meet the highest standards before returning the final Jira ticket to the client.

2023/12 – 2024/03

Cengage

Higher Education Exams and Assignments

- **Project Scope:**
Worked on the Cengage project, tasked with creating assignments for the platform based on provided word documents containing question answers.
- **Detailed Review:**
Thoroughly examined word documents, ensuring no missing font styles or questions, and meticulously followed the provided guidelines.
- **Font and Formatting Consistency:**

Paid close attention to maintaining consistency in font styles and formatting to faithfully replicate the original documents.

- **Timely Delivery:**

Executed assignments within designated timelines, prioritizing punctuality without compromising on quality.

- **Quality Assurance:**

Conducted rigorous quality assurance checks to verify the accuracy and integrity of each assignment before delivery.

- **Client Appreciation:**

Received positive feedback from the client for the team's commitment to excellence and reliability in completing the project successfully.

2023/06 – 2023/10

Penn Foster

K-12 Courses

- **Content Extraction and Review:**

Initiate projects by receiving raw e-learning content in text format from clients. Meticulously analyze the provided documentation to understand the foundational elements.

- **Collaborative Course Design Approval:**

Work closely with clients to finalize and approve course designs. Ensure alignment with client expectations and project objectives before proceeding to development.

- **Code Implementation on Pennfoster:**

Translate approved designs into actionable code on the Pennfoster e-learning platform. Execute the build-out of engaging and effective courses tailored for university-level students.

- **Thorough UI/UX Evaluation:**

Conduct rigorous assessments of the user interface and experience to guarantee optimal accessibility and comprehension for students. Address any potential issues to enhance overall usability.

- **Quality Assurance and Timely Delivery:**

Execute comprehensive quality assurance checks on both content and design. Upon successful completion, promptly deliver the finalized e-learning courses to clients, ensuring alignment with project goals and client expectations.

2023/04 – 2023/06

Pearson Scope and Sequence

Higher Education

- **Comprehensive Syllabus Analysis:**

Receive complex university course data from clients in Excel format, requiring thorough understanding of subject-specific requirements.

- **Accurate data extraction and collection:**

Efficiently extract and compile the target data from the provided excel sheet. Create a new, organized Excel file, ensuring accuracy in data selection and adherence to specified criteria.

- **Error-free data management:**

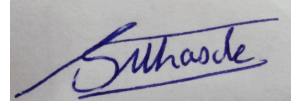

Execute data extraction with close attention to detail, emphasizing the need for error-free results. Maintain a high standard of accuracy in selecting and transferring information to maintain the integrity of the University's curriculum.

- **Efficient Automation Integration:**

Lead the development and implementation of Python-based automation systems. This innovative solution significantly streamlines the extraction process, automates data retrieval and accelerates the creation of new Excel sheets, thereby optimizing performance.

Declaration
